

Ed Yanchok Long Bird Shoot

Every Sunday at High Noon

A **Long Bird** is a straightaway target thrown from Trap 1 but shot at from a point on the 27-yard line between Traps 2 and 3 (see the diagram). The club will provide you with a factory Handicap shell for your shot.

One shooter is drawn randomly from the tickets sold for that week's shoot. Tickets are only \$2 (including the shell) and you can buy as many tickets as you like. The more you buy the greater your chances of being selected.

If your name is drawn and you make the shot, **YOU WIN THE ENTIRE POT**. If you miss, the pot rolls over to the next week. The club has seeded the pot with \$100 to get things moving.

Wondering why we call it the Ed Yanchok Long Bird Shoot? Simple, **Ed won it several times!**
